

SENSOR TECHNOLOGY + SOFTWARE + ENGINEERING

A sensor alone does not make an automation solution.

The strength lies in the **synergy** between technologies.

Leuze

Leuze

SENSOR TECHNOLOGY + SOFTWARE + ENGINEERING

Sensor technology

Gathering the right information about objects, locations, and processes.

Leuze

SENSOR TECHNOLOGY + SOFTWARE + ENGINEERING

Software

Processing information and **translating** it into actionable insights and decisions.

Leuze

SENSOR TECHNOLOGY + SOFTWARE + ENGINEERING

Engineering

Ensure that all components **work together** within the technical constraints.

SENSOR TECHNOLOGY + SOFTWARE + ENGINEERING

Automation Solutions

A single, integrated approach in which technology, software, and engineering reinforce one another.
